

Marsh Basin

The Marsh basin by Merwe is a small basin with a round shape. Certainly, this bathroom basin is ideal for small bathrooms where the basin is in the corner. Furthermore, the size of the small basin and the depth of the bowl of the stone basin ensure that it is a practical basin.

The basin has soft, feminine lines. For that reason, the soft lines of the solid surface basin allow enough space for your hands. This stone, zinc and bronze basin is suitable for small spaces like guest bathrooms and hotel rooms.

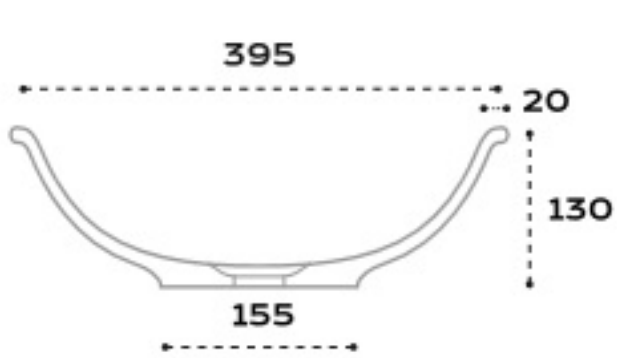

Dimensions: 397 D x 130mm H

Material: Solid surface, Bronze or Zinc

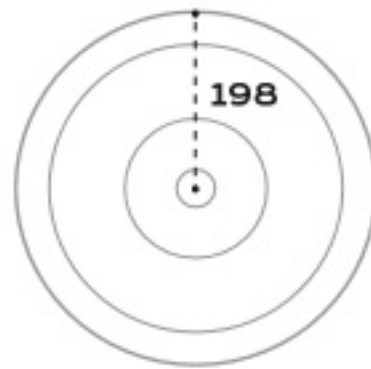

Waste: 40mm non-overflow (supplied separately)
