

Axor Citterio E Diverter Mixer

The charm of AXOR Citterio E lies in the fact that it is a combination of the familiar and the brand new. This collection combines timeless high quality and refined elegance. Precisely-formed surfaces and edges merge with soft shapes and transitions. Modern functionality which is also pleasant to the touch. In collaboration with Italian designer Antonio Citterio, AXOR has created a bathroom collection which, thanks to its smooth design concept, can be seamlessly integrated into a wide variety of style ambiances – from modern city apartments to luxurious art nouveau mansions. It transforms the use of mixers on a day-to-day basis into something quite special.

Finish: Available in all Axor finishes

Installation: Inwall body is provided and must be fitted during rough-in
