

Axor ShowerSelect- 3 Outlets

A little button guarantees an easier, more comfortable showering experience. Hansgrohe's Select technology has made it easier for you to operate your shower, at the simple touch of a button.

The AXOR ShowerSelect thermostats are equipped with little buttons – so that where you once had to rotate, now you just press: use the Select buttons to switch between different showers, such as the hand or overhead shower. Therefore the shower is operated intuitively. Thanks to the clear, white symbols on the black buttons, you will have no problem identifying which shower is selected. The elegant AXOR ShowerSelect thermostats come in several variants: ranging from one through to four different showers.

Features: Simultaneous use of 3 outlets

Installation: Inwall body is provided and must be fitted during rough-in

Finish: Available in all Axor finishes
