

Axor Starck Electronic Basin Mixer

Non-contact. Minimalist in design. A mixer shape reduced to the bare essentials. Featuring the diagonal and cylindrical spout. The slender, round mixer body. AXOR Starck mixers have long been a classic. As has the electronic version. Battery-operated or via 230V mains connection. In AXOR Starck electronic mixers, the technology is discreetly integrated. Optimally adapted to the minimalist design. Form Follows Perfection.

Design: Phillipe Starck

Features:

- infrared sensor technology
- 230 V / 50 Hz mains connection
- temperature adjustable via mixer lever on the side
- manual water stop for washbasin cleaning
- Hygiene rinse activatable (automatic water flow for 10 seconds every 24 hours following the last operation)
- Permanent rinse activatable (single water flow for 180 seconds, suitable for thermal disinfection)
- adjustable optical range of infrared sensor (2 settings)
- automatic environmental adjustment of infrared sensor
- dirt filters in the connection hoses
- performance may be impaired if the sensor is obscured by the design of the wash basin, or when the wash basin is oversized and the distance between sensor and the wash basin edge is larger than 75 mm, functional restriction due to too large distance
- scope of supply: with two filter units with fine filter to protect from incoming dirt, for assembly on existing angle valves. Filter element can be removed and cleaned., non-return valve

Finish: Available in all Axor finishes

WELS: 6 STAR Rated. 5 L/min. Registration number T25813
