

Axor Starck Organic Electronic Basin Mixer

Taking the natural world as inspiration. A naturally-grown shape. Treating resources with respect. A characteristic feature of AXOR Starck Organic. Including the innovative shower spray with 3.5 litres water consumption. The economical use of valuable water resources. The skin gets a thorough wetting. AXOR Starck Organic electronic mixers are battery-operated or run via mains connection. With temperature pre-adjustment or temperature control. A sensuous combination of design and function. Perfection.

Design: Phillipe Starck

Features:

- infrared sensor technology
- 230 V / 50 Hz mains connection
- with isolated water conduction
- manual water stop for washbasin cleaning
- Hygiene rinse activatable (automatic water flow for 10 seconds every 24 hours following the last operation)
- Permanent rinse activatable (single water flow for 180 seconds, suitable for thermal disinfection)
- adjustable optical range of infrared sensor (2 settings)
- automatic environmental adjustment of infrared sensor
- adjustable spray former
- flow rate 3.5 l/min
- dirt filters in the connection hoses
- performance may be impaired if the sensor is obscured by the design of the wash basin, or when the wash basin is oversized and the distance between sensor and the wash basin edge is larger than 75 mm, functional restriction due to too large distance
- scope of supply: with two filter units with fine filter to protect from incoming dirt, for assembly on existing angle valves. Filter element can be removed and cleaned., non-return valve

Finish: Available in all Axor finishes

WELS: 6 STAR Rated. 3.5 L/min. Registration number T25819
