

Tarn Oval Basin

The Tarn Oval Basin, is made in Australia, by a fine art foundry. This sculpture piece, with all the fine marks in the basin, gives a lovely natural feeling to the bathroom. These basins are casted in the lost wax process, and the patina on the basin will ensure that every basin has a unique feel to it.

Merwe's products are named after water bodies. According to Cambridge Dictionary the meaning of "Tarn" is a small mountain lake.
