

Simplomani Basin

Elegant in their perfectly balanced proportions, minimal in their overall definition of form but at the same time organic: the Simplo basins by Antoni Lupi are perfect in interpreting thin edges and curved corners, the latest trends in interior design and elements of design that make up the bathroom environment.

The subtle edges allow you to take advantage of the full capacity of the basins, while the comfortable surface amplifies their functionality. Simplo are made entirely in Flumood. These washbasins can be hung on the wall or top mounted on a small cabinet and can find a place in niches or guest bathrooms.

Dimensions: 450 W x 250 D x 110mm H
