

## Miena Round 380 Bench

With the new Miena washbasin bowls made of superior steel enamel, Kaldewei presents yet another highlight of modern bathroom design. The washbasins made with a single layer of steel enamel combine the highest standards of minimalist design with a unique fine-edged quality. The Miena washbasin bowls designed by Anke Salomon are available in round and rectangular versions, both in two different sizes. Kaldewei has once again exceeded manufacturing constraints to make its Miena product series thus continuing its success story of groundbreaking bathroom innovations.
