

Narva Back-to-Wall Suite

The Narva toilet by Turner Hastings features second generation ultra clean rimless flush technology with the fully glazed open rim maintaining excellent flushing performance whilst making cleaning more efficient and effective. Paired with thick or thin seats to suit contemporary or classic styling of your bathroom. The luxury soft closing seat and quick release allows you to simply press two buttons and the seat slips off its hinges for easy cleaning around the fixing area. The Narva also features smooth straight back-to-wall lines and high quality world recognised R&T inlet and outlet valves. The highly adjustable waste set out allows it to fit almost all applications. Features dual flush water saving technology.
