

Norm Pedal Bin

Beautiful, stylish design with minimalistic lines. Simple, well-conceived design that makes the bin a pleasure to behold and practical to use. Both the powder-lacquered steel outer shell and the plastic inner bucket are easy to clean and the bin comes with an intelligent bag lock. The brushed steel lid opens at the slightest touch of the pedal without striking the back wall. Despite the rounded design of the base, the bin is very stable and does not skid on the floor.

Design: Norm Architects

Volume: 4L or 7L

Material: Steel, Plastic

Colour: Black
