

Lulu Hooks

Inspired by an open flower Lulu comes to full blossom on your wall. Lulu comes in 2 different sizes/depths and can be used as a “flower” bouquet on the wall... the combination and the lay-out is entirely up to each individual end-user and his/her creativity, resulting in every installation being entirely different. Or it can be used more traditionally as single items.

Reddot design award winner 2010, Good Design.
